## Prices Good With Weather Tricky

Vegetable prices in the Lake Okechobee Region are good this week with the weather playing tricks in the growing section. Cold weather that sent the temperature down to as low as 28 degrees in the Six Mile Bend area east of Belle Glade had the farmers guessing this week. Slight effects of frost were detected in a few areas but in most spots the biggest damage came from the continuous lashing by the wind for 36 hours.

The first of the week found corn selling from \$2.50 to \$3.00 a crate.

As the volume of beans and corn harvested tapers off, shipments of the so-called salad vegetable — celery, cabbage, escarole, lettuce, endive and the like — will steadily increase for the next few weeks.

Pascal celery brought prices ranging from \$1.75 to \$3 a crate, according to size and quality.

Cabbage sold for \$3 a crate during the week.

Also selling at profitable prices were endive (\$2.25 to \$2.50 a crate) and escarole (\$3), these two leafy vegetables making up 12 cars. Three cars of bell pepper sold for \$5 to \$5.50, large, and \$3 to \$3.50, medium, per bushel basket.

There was also a light movement of radishes, parsley, chinese cabbage, black-eye peas and squash.

## Conner Is Visitor In Glades Area

Doyle E. Conner, candidate for commissioner of agriculture from Starke, was a visitor in the Glades on Tuesday of this week and met many of the growers who are vitally interested in the upcoming race for the important job. He appeared before several groups and made a favorable impression on those to whom he talked.

At the 441 Steak House early Tuesday morning Mr. Conner was introduced to a large invited group by L. J. "Luke" Fraser who has known him for many years. In a short address the Bradford County candidate promised expeditions and careful administration of the duties of the office he seeks.

Mr. Conner owns and operates insurance and real estate agencies in Starke and Miami, but is primarily interested in his cattle farming. He raises Angus cattle and some Brahman; also hay, pecans, and Shetland ponies. He is a member of the Florida Farm Bureau.

He was born December 17, 1923, in Starke, Bradford County, Florida. He grew up on his father's 400 acre farm in Bradford County. They grew strawberries, and raised cattle and swine. During World War II, Doyle took over the farm at the age of twelve while his father went to work at Camp Blanding. Doyle attended a rural school and was an active 4-H'er, even President of his Club.

Along with managing the farm, Doyle acquired cattle and swine of his own. He became active in the Future Farmers of America and became State President of this or-

## Do You Remember Pearl Harbor?

Remember Pearl Harbor? Most adult Americans do. And they still remember the cold chill that ran down their spines as radios blared forth the news of the sneak attack on Pearl Harbor. America was plunged into war.

Seventeen years after that infamous December 7, Americans have just been reminded by the first annual Civil Defense Day how the chances for peace can be improved through the preparedness of every family and the enemy's knowledge that we are prepared.

We are now well aware of the need for vigilance and preparedness. The Civil Defense Agency today is ready to help minimize the effects of any future attack with trained manpower.

But Civil Defense is only as good as its public support. Preparations for a nuclear attack, or even natural disaster, must be made in advance; afterwards it is too late.

The people of Cameron, La., whose failure to heed warnings cost 517 lives to Hurricane Audrey, know this only too well. And in the eighteen productive months since "Audrey," they have learned the value of an organized effort, such as Civil Defense, in rebuilding. The Office of Civil and Defense Mobilization has authorized \$2,304,995 toward the rebuilding of Cameron Parish (county).

Most Americans have never been touched directly by major disaster. But they can learn from other's experience, participate in Civil Defense training, prepare their homes and families for any eventuality, and help provide the money for necessary equipment, supplies and operations.

It is not enough to remember Pearl Harbor unless you do something about it.

Mr. Justice is returning to his former job with the Florida Power and Light Company.

## Mr. and Mrs. Luther Jones Are Better

Mr. and Mrs. Luther Jones are in the Belle Glade hospital where they are being treated for severe burns received last Wednesday night when gas exploded in a bedroom of their home. Mrs. Jones, who was not burned as severely as Mr. Jones, will probably be allowed to go to her home today but Mr. Jones will necessarily have to remain in the hospital for several more days. He is suffering from burns on his face and head, his foot and leg, and one hand.

Mr. Jones is editor-publisher of The Belle Glade Herald and associates of his this morning said that he is recuperating as well as can be expected. They said it would take some time for all of his hurts to heal. One ear and one hand seem to be giving him the most pain. Their many friends in the Lake Region will wish them a speedy recovery.

## Belle Glade Takes Annual Battle

The Pahokee Blue Devils and the Belle Glade Golden Rams put the wraps on the 1959 football season at the end of their traditional Thanksgiving Eve battle in the Belle Glade stadium, with the Rams taking the Bill Young Memorial Trophy by virtue of their hard-earned 25-21 victory over the Blue Devils.

The Rams had a big second quarter, scoring three touchdowns and chalking up 19 points, giving them a 19-7 lead at the half. The Ram's John Chamblee was the star of the evening, scoring Belle Glade's second TD in a spectacular run for a 96-yard kickoff return, and later in the fourth quarter returning a pass interception 40 yards to the Pahokee 10 to set the stage for The Rams' winning TD when Quarterback Charles Lutz tossed the ball 10 yards to Ronald Hudspeth.

The Blue Devils fought valiantly, with Douglas Blanton, Ronnie Jones and Henry Holt scoring touchdowns that overcome the halftime deficit and put Pahokee in the lead, 21-19 until the final minutes of the game.

Even though both Pahokee and Belle Glade showed little strength in football during the season, the game proved very exciting to local football fans. The players gave everything they had to make it a close contest with the outcome doubtful until the final whistle.

The powerful Pompano Tornadoes were again the champions in (continued on page 8)

## Rural Station To Serve Bryant Area

On Monday the third class post-office at Bryant, Fla., was discontinued by the U. S. Postoffice Department as an independent post-office and was established on Tuesday as the Bryant Rural Station of the Pahokee Postoffice.

The Bryant Rural Station will operate in the building, using the same equipment, and rendering the same services to the public as in the past, with the exception of Postal Saving service, which has been discontinued. Mail may still be addressed to Bryant, Fla., as in the past, and the Station will continue to receive its mail and dispatch outgoing mail independently on the Star Route without being worked through the office in Pahokee.

The Bryant office was established as Amucar, Fla., in its present location March 24, 1930, with Mrs. Anne G. Geiger as postmaster. The name was changed to Bryant March 1, 1946.

Mrs. Alma Nail was appointed postmaster on Nov. 15, 1952, succeeding Mrs. Geiger, and served continuously since then until her retirement Nov. 30 after more than 27 years of service.

Mrs. Elsie M. Scruggs, who has served as substitute clerk at the Bryant office for several years, will operate the Bryant Rural Station as clerk in charge.

### Howell Collins For Secretary Of State

TALLAHASSEE — Howell C. Collins, Tallahassee insurance executive, announced this week that he will be a candidate for Secretary of State.

The 41-year-old native of Newberry, Fla. served in the Air Transport Command during World War II. He has lived in Tallahassee since 1933 except during the war and a five-year residence in Miami after the war.

He is married and the father of three daughters.

### Population Spurt Continues In State

MIAMI—Within five years, Florida will surpass Massachusetts in population, says Milton Weir, president of Arvida Corp., one of Florida's largest land-owners.

Florida, by 1979, will also be vying for the top position in the nation in terms of per-capita dollar production, according to Weir.

Weir bases his predictions on a U. S. Census Bureau estimate when he says Florida will have a population of seven million between 1965 and 1970. Florida residents now under approximately 4,500,000 and are increasing at the rate of 225,000 a year.

The head of the firm developing huge tracts of land in Boca Raton, other areas immediately south of Miami as well as developments near Sarasota, named many industrial firms who have recently established plants in Florida. Among those named were Chemstrand, Prudential Insurance Co., Lawnlite, General Electric and Sperry-Rand.

Since 1949 Florida, according to Weir, has more than doubled in manufacturing employment and gained 263 per cent in pay rolls as a result of these industries entering the state.

### Phosphorus Sources Suitable For Stock Feeding Are Listed

GAINESVILLE — Most Florida livestock needs supplemental phosphorus for efficient production, according to Dr. L. R. Arrington, associate animal nutritionist with the Florida Agricultural Experiment Station.

Dr. Arrington says a number of sources are available on the market to supply this material. "For many years," says the nutritionist, "bone meal was the chief source of phosphorus. But the needs and demand for phosphorus became such that there was not enough bone meal, so other sources now have to be used."

Dicalcium phosphate is a manufactured product containing about 18 to 20 percent phosphorus. This is widely used in livestock feeding. Defluorinated phosphate is a natural rock phosphate which has been processed to make it suitable for animals. A large amount of this product is produced in Florida. The fluorine in this material has been removed or reduced so that it may be fed without danger of fluorine

toxicity. Dr. Arrington says the amount of phosphorus in the different defluorinated products varies from about 14 to 18 percent.

Curacao Island phosphate is mined in the islands off the coast of South America and contains about 15 percent phosphorus. But Dr. Arrington says the fluorine has not been removed and the amount fed needs to be limited and carefully controlled.

Soft phosphate, or colloidal phosphate, in another material produced in Florida. This product contains about 9.5 percent phosphorus, but also contains fluorine.

"Recently," says Dr. Arrington, "there has been much interest in the use of phosphoric acid as a source of phosphorus for livestock." The acid can be used, he adds, but it is very difficult and somewhat dangerous to handle because of its corrosive nature.

## Pick your savings target and shoot straight for it!

**A** home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is systems. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you *before* you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4462.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

MIAMI—With all Florida anticipating a record volume of visitors this winter, Seaboard Air Line Railroad's advance Pullman and coach bookings already show increases over last year.

Bookings, on the streamliners Silver Meteor and Silver Star indicate a substantial portion of the state's visitors will arrive by train. ## Christian Science Group Of Canal Point

The beauty of holiness will be a theme dealt with at Christian Science services Sunday in the Lesson-Sermon entitled "Go the Only Cause and Creator."

Scriptural selections will include this verse (I Chronicles 16:29): "Give unto the Lord the glory due unto his name: bring an offering, and come before him: worship the Lord in the beauty of holiness."

Correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include (246:13, 23): "As the physical and material, the transient sense of beauty fades, the radiance of Spirit should dawn upon the enraptured sense with bright and imperishable glories... Man, governed by immortal Mind, is always beautiful and grand. Each succeeding year unfolds wisdom, beauty, and holiness."

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U.S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

## Miss Ann Atkins Weds G. T. Shelby

Miss Ann Cooper Atkins of West Palm Beach, daughter of Mr. and Mrs. J. S. Atkins, Jr., of Pelican Lake, became the bride of Gary Thomas Shelby of Lake Park, son of Mr. and Mrs. C. E. Shelby of Bayside, Va., in a candlelight ceremony at the Missionary Baptist Church in Canal Point Saturday, Nov. 28, at 7 p. m. Officiating at the ceremony was the Rev. Allen Watson, pastor of the Northwood Baptist Church, West Palm Beach, assisted by the Rev. Charles D. Stewart, pastor of the Canal Point Church.

The church altar was decorated with floor baskets of blue chip chrysanthemums and lavender pompons against a background of short leaf pines, and was lighted with tapers in branched candelabra. At the windows were lighted candles surrounded by arrangements of pine twigs and cones.

Mrs. Allen Watson, pianist, played the traditional wedding marches and accompanied Allen Wilson, soloist, as he sang "Walk Hand and Hand," "At Dawning" and "Wedding Prayer." A tape recording of the voice of Dick Atkins, brother of the bride unable to attend the ceremony, singing "Because" was played as part of the program of nuptial music.

The bride, given in marriage by her father, wore a formal gown of white velvet chiffon with chapel train, fashioned princess style with scoop neckline featuring applique of lace and seed pearls. The long tapered sleeves were pointed at the wrists and a finger-tip veil of French illusion was attached to a crown of lace and seed pearls. She carried a bouquet of vanda orchids centered with two large white orchids with purple throats on a base of feathered carnations, lace and streamers.

Mrs. Jacob Davis of West Palm Beach, matron of honor and the bride's only attendant, wore a waltz-length gown of Nile green iridescent velvet with matching headpiece, and muffs of varying purple shades. She carried a crescent-shaped bouquet of lavender and pink flowers.

Jacob Davis served as Mr. Shelby's best man. Wilbur Echols of Pelican Lake, William Yant, Wesley Vickery and Douglas Townsley, all of West Palm Beach, were ushers.

Mrs. Atkins chose for her daughter's wedding a smoked blue silk organza dress with matching headpiece, long white gloves and pink camellia corsage.

At the reception at the home of Mr. and Mrs. A. R. Chastain in Canal Point the table was laid with a white gathered oval-shaped cloth and tiers of lavender organza, and lighted with lavender candles in silver candelabra on either side of the wedding cake. Mrs. Richard Thierry was at the bride's book. Miss Betty Echols and Miss Emmalyn Phillips poured at the punch bowls while Miss Rochelle Smith and Mrs. Howard Holland served portions of the cake. Fall colors predominated in the decorations.

For the wedding trip the bride changed to a black cashmere suit with fur collar and matching accessories. Her corsage was of two white orchids with purple throats. After the honeymoon the couple will make their home at Webster Acres, Park Road, Lake Park, Fla.

Out-of-town guests were Mr. and Mrs. D. T. Cooper, Buckhead, Ga.; Mr. and Mrs. J. S. Atkins, Sr., Mr. and Mrs. Harmon Atkins and family, and Mr. and Mrs. Charles Laycock and family, all of Avon Park; Mrs. C. Moorehead and daughter, Elaine, Fort Lauderdale; Miss Betty Echols and Miss Emmalyn Phillips, Macon, Ga.; Miss Rochelle Smith, West Palm Beach; Mrs. Marion Holland of Lake Worth and her mother of Orlando.
